# *Oasis - Live Forever*

```
Sol               Re
Maybe I don't really want to know
         Lam
How your garden grows
  Do             Re
As I just want to fly
Sol               Re
Lately did you ever feel the pain
         Lam
In the morning rain
  Do                    Re
As it soaks you to the bone

Mim                   Re
Maybe I just want to fly
                              Lam
Wanna live, I don't want to die
                       Do
Maybe I just want to breathe
      Re            Mim
Maybe I just don't believe
                        Re
Maybe you're the same as me
                              Lam
We see things they'll never see
                              Faadd9
You and I, we're gonna live forever

         Sol             Re
I said maybe I don't really wanna know
                Lam
How your garden grows
      Do              Re
Cause I just want to fly
Sol                   Re
Lately did you ever feel the pain
                Lam
In the morning rain
     Do               Re
As it soaks you to the bone

Mim                 Re
Maybe I will never be
                            Lam
All the things that I wanna be
                         Do
Now is not the time to cry
          Re                Mim
Now's the time to find out why
                            Re
I think you're the same as me
                            Lam
We see things they'll never see
                            Faadd9
You and I are gonna live forever

Sol Re Lam Do Re x2
Mim Re Lam Do Re
Mim Re Lam Faadd9

Sol               Re
Maybe I don't really want to know
