I don't want to change - Damien Rice

```
Mim Sim Do Re

Mim          Sim     Do                Re
   Wherever you are    you know that I adore you
Mim              Sim Do                  Re
  no matter how far     well,I can go before you
   Mim       Sim              Do
and if ever you need someone
                     Re
well, not that you need helping
  Mim           Sim           Do
but if ever you want someone
              Re
know that I am willing
       Do                          Sol
Oh well I don't want to change you I don't want to change
  Re                        Mim
I don't want to change your mind
       Do                    Sol
I just came across a manger out among the danger
     Re                      Mim
somewhere in a stranger's eye

Mim            Sim Do                  Re
   wherever you go     I can always follow
Mim                 Sim   Do                Re
I can feed this real slow     if it's a lot to swallow
Mim                   Sim           Do
   and if you just want to be alone
                        Re
well, i can wait without waiting
Mim                   Sim         Do
   if you want me to let this go
                    Re
well, i'm more than willing
         Do                          Sol
Oh cause I don't want to change you I don't want to change
  Re                        Mim
I don't want to change your mind
        Do                  Sol
I just came across a manger out among the danger
   Re                     Mim
somewhere in a stranger's eye
     Do                       Sol
Oh I don't want to change you I don't want to change
  Re                        Mim
I don't want to change your mind

        Do                          Sol
I just came across a manger out among the danger
     Re                      Lam                          Re
somewhere in a stranger's eye I've never been with anyone
                        Lam
in the way I've been with you
                      Re
but if love is not for fun then it's doomed
     Sol          Sim          Mim    Do
cause water races water races down the waterfalls
      Sol         Sim          Mim      Do         Re
cause water races water races down the waterfalls
 Do                          Sol
I don't want to change you I don't want to change
  Re                        Mim
I don't want to change your mind
       Do                     Sol
I just came across a manger where there is no the danger
      Re                        Do
where love has eyes and is not blind

Mim Sim Do Re
```
